Possible extensions to the MBT plant: balers for recyclable materials; RDF equipment; waste to energy; ...

Advantages of MBT plants

- > Safe for environment and human health;
- > Extended landfill lifecycle;
- > Saleable commodities (glass, cardboard, plastics, metals, compost, RDF);
- > Employment and social development.

Advantages of MENART solutions

- > Tailor-made sorting lines;
- > Simplicity, robustness and reliability;
- > Easy to operate and to maintain;
- > Wide scope of services from engineering to local training;
